Walk for Work

Bridges to Employment of Alternatives and Work-Force Connections of Delta Community Supports are partnering for a second year to raise funds to improve and expand employment opportunities for job seekers with disabilities by hosting the 2nd Annual **Walk for Work** at Bridgewater Commons in Bridgewater, New Jersey. Both are local non-profit agencies that collectively assist over 700 individuals with disabilities annually in finding and maintaining employment, as well as other needed services. A difficult economy equals challenges for job seekers everywhere. For people with disabilities, the story is no different. People are struggling to find and maintain employment and continue to make ends meet for themselves and their families. The challenges can be even greater when you have an additional barrier to employment through a disability. Our Supported Employment services make that task a little bit easier.

Since we feel it is critical for all people to be able to work, to contribute to their community, to pay taxes and to participate in stimulating our economy, we need to be able to continue providing this valuable service.

Through these fundraising efforts, we strive to raise awareness and provide education about this untapped workforce and the talents and abilities of such a wide range of candidates who wish to be successfully employed. Supported Employment helps to bridge the gap between valuable job candidates and employers, creating job matches and providing job coaching services to ensure the greatest chance for job success.

Please join us in our mission!

The Walk for Work Team
